

Safety at RDA

You will be aware that working with horses is potentially dangerous.

The Trustees feel that volunteers should preferably not be working on their own on site so anyone visiting to check ponies / feed hay etc should have a second person with them (*It does not matter if that person is not 'horsey'*)

People riding out should go in pairs and must tell someone when/where they are going and when they will be back. Ensure mobile phones are carried. Correctly fitted hats to PAS015 standard **MUST** be worn and body protectors are strongly recommended.

Thank you
